ARENA CONSTRUCTION

- A choice of surfaces to suit a wide range of uses and abilities
- Latest Laser levelling equipment and modern plant used
- Finest hard ragstone drainage bed

- Robust and unique class 4 pressure treated timber
- Our own full time staff
- Angled kickboards, low fencing and mirrors (optional)

SURFACES

We offer specialist surface mixes to suit your discipline and level of use. The reputable MSA surfaces are created to our bespoke specification to deliver robust, long lasting performance.

We recommend:

- Waxed coated surfaces
- Fully waxed 5% for lunging
- Semi waxed 4% for show jumping, dressage and polo
- Fibre waxed 3%

DRY SURFACES

- MSA pre-mixed Fibremix dry
- Fibre enriched Equisand, transformed to MSA Fibremix

SUB-SURFACE IRRIGATION

Porous pipe enabling capillary action to keep the surface moist during prolonged dry periods (optional extra).

SURFACE ENHANCERS

MSA FIBRETEK

Our most popular surface - this 100% synthetic virgin fibre product mixes well into silica sand to provide a robust structured surface. This can also be incorporated retrospectively with our specialist equipment.

RUBBER CHIP TOPPING

This 25mm Rubber Chip provides excellent insulation and cushioning. It can be added to any existing sand and rubber surface.

STABLES AND YARDS

- Concrete stable bases constructed
- Traditional buildings adapted & extended
- Internal stables
- Post and rail fencing & gates

- Water and electricity supplies
- Automatic stable drinkers
- Surface water drainage systems
- Electrical installations provided

HORSE WALKERS

We provide circular concrete base rings for a variety of manufacturers.

LUNGE PENS

Available in different diameters, surfaces and fencing options to suit your discipline.

MUCK STORES

Various construction specifications available to suit your method of muck removal.

SURFACE MAINTENANCE

Regular surface maintenance is the essential ingredient to a long lasting surface ensuring a consistent performance and safe guarding your investment.

Different surfaces require different implements. Our robust waxed and fibre surfaces require heavier duty Grooms such as the ones we provide (pictured to the left).

Contact the office for a price to supply and deliver the MSA Groom nationwide.
